COAL AND WOOD

MEDICINAL.

The human heart, that most wonderful The human heart, that most wonderful of engines, is scarcely larger than a man's fist. Yet in each twenty-four hours the dual heart moves approximately six tons of blood, equivalent to about two barrels of blood per hour. And this costinues without ceasing from the first breath of infancy to the last sigh of age. Is it any wonder that when continued extra strain is put upon so delicate and busy an organ, it should break down? Is it any wonder that in this age of overwork there should be an increasing number of deaths attributed to heart failure?

Dr. Pierce's Golden Medical Discovery cures diseases of the organs of digestion

Dr. Pierce's Golden Medical Discovery cures diseases of the organs of digestion and nutrition and purifies and enriches the blood. One of the ingredients entering into the "Discovery" is one of the best heart tonics known to medicine. Thus while through the action of "Golden Medical Discovery" the body is nourished into strength, the heart is also strengthened and an adequate blood supply is pumped to the stomach and kidneys thus improving the action of these organs.

organs.

Sick people, especially those suffering from chronic diseases, are invited to consult Dr. Pierce by letter free, and so obtain without charge, the opinion of a specialist on their ailments. All correspondence strictly confidential. Address pondence strictly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I had been troubled with catarrh of the stom-ach and heart trouble," writes Mr. W. D. Merch-ant, of Tylersburg, Clarion Co., Penna. "Had doctored for some time without relief, then I be-gan to take Dr. Pierce's Golden Medical Discov-ery. I took seven heatiles. Before I began to take it I weighed 119 pounds, and now I weigh 176. I am working steadily and feel like a new man. I send you many thanks." Dr. Pierce's Pleasant Pellets cleanse the

BRIDGE AND AVENUE.

The Senate District committee has received the report of the commission appointed to prepare plans for the development of the park system of the District of Columbia, The various parks of the District are referred to and the plane also indicate desirable locations for public buildings to be erected

for the future wants of the government. Treating of the Memorial Bridge, af-ter quoting from Webster's speech at the Capitol on July 4, 1851, the report

"In the forty years that have elapsed since that utterence he idea of a monu mental bridge across the Potomac has not been forgotten, and today there a strong and widespread feeling that a monument to American valor—to use President McKinley's apt phraseshould connect the capital with the city of the nation's dead.

city of the nation's dead.

"In 1899 Congress made an appro-priation to secure plans for a memorial bridge, and the designs, prepared un-der the direction of the War Depart-ment, were submitted to Congress, but up to the present time no appropriation has been made to build a bridge.

"The commission recommends that when an appropriation comes to be In all its stages bereshould be cleaned as to begin the Washington approach at the Liocoln memorial side, and that the direction of the bridge should be a the direction of the Arlington mansion.

The extreme width of the space acroswhich the bridge is to be constructed
and the comparatively flat topography would seem to make a nigh bridge in-appropriate, and unless the clearance is at least eighty feet the bridge must b ve a draw, since to shut iff the hartor of Georgetown would appear to be inadvisable. The construction of draw precludes the idea of a bridge of masonry, which is the highest type of a mascory, which is the figurest type of a monumental structure. A continuous steel bridge, resting on slobe piers, would be much more dignified than a bridge composed in part of arches and in part of draws, which would seem to out the bridge into two portions in midchannel. It is better to meet the exigencies of the problem in an entirely frank manner, and to accept inexorable conditions, rather than attempt disguise would approve such a design, thing since that consummation is beyond reach, then architectural candor demands a steel bridge on massory piers The movumental portion of the bridge should reach from the Washington The monumental portion of the bridge should reach from the Washington bank to Analostan Island, where a great concourse to carry some great design in sculpture should be constructed.
